

INDEX OF AUTHORS

- Allen, W. Sidney
 Latin stress 158–159
 Archangeli and Pulleyblank
 anti-edge effects 410–412, 413
 Basque 382, 413
- Baker, M.
 beneficiaries and intransitive verbs
 499–503
 Case Theory 494–495
 Chicheŵa objects 494–505
 incorporation 467–468, 537
 problems with Chicheŵa locatives 505
 Theta Theory 493–495
 verb movement 45
- Belletti and Rizzi
 ne cliticization 5
 psych-verbs 14
- Borer
 anaphoric INFL 356
- Borowsky
 English affricates 404–406
- Bresnan
 right node raising 603
- Burzio
 come-clauses 19–20
 ergative adjectives 1–2
 ne cliticization 5–7, 29–30
- Choe
 Berber word order 560
 VSO order can arise by NP adjunction
 560–561, 579
- Chomsky
 Nominalizations 1
- Chung
 Chamorro INFL 566
 Chamorro arguably nonhierarchical
 568–569
- Cinque
 complementizer selection in Italian 21
- Clements
 Kikuyu
 operators 347–348
 irrealis 351–352
- Cole
 control rule 343–344
 parametrization of control 326
- Doron
 incorporation analysis of synthetic
 forms inadequate 535–536
- Emonds
 verb movement to I 560, 577
- Georgopoulos
 Palauan operators 348–349, 363–369
- Giorgi
 anaphor binding and thematic subjects
 15–17
 ergative nouns 33–34
- Goodall
 coordination 339
- Grimshaw
 French clitics and pronouns 514, 516
- Haïk, Koopman and Sportiche
 Moore operators 349
- Haider
 participles 25
- Hale
 Winnebago stress 149–150
- Halle and Bromberger
 rule ordering 621
- Halle and Vergnaud
 stress theory 150
- Hammond
 Arabic plurals 263, 267–271
- Heim
 indexing of operators 358
- Hoekstra
 participles 25
- Hualde
 Basque affricates 382, 413–418
- Huang
 null pronouns as variables 325
- Jaeggli
 arbitrary null pronominals 302
- Kayne

- clitic climbing 287
 - Path Theory 366–369
- Kiparsky
 - Russian Voice Assimilation 448
 - underspecification 444
- Kitagawa
 - English subjects 47
- Koopman
 - verb movement to I 560, 577–8
- Levin
 - Piro edge effects 401–402
- Lowenstamm
 - Yiddish V2 63–64
- McCarthy
 - Cairene Arabic stress 156–157
 - Yucatec morpheme structure 411–413
- McCloskey
 - Headless NPs 522–523
 - Irish inflection and pronouns 509–512
 - verb movement to I 577
- McCloskey and Hale
 - Headless NPs 522–523
 - Irish inflection and pronouns 509–512
- Perlmutter
 - ergative adjectives 1
 - participles as ergative diagnostic 24
 - Relational Grammar Laws 100
- Pesetsky
 - movement in LF 614
- Platzack
 - Icelandic V2 60–61
- Pollock
 - French *en* 31–32
- Pranka
 - incorporation analysis of Breton 524, 529
- Reinhart
 - pronouns 594, 597, 598
- Rice
 - Eskimo stress 168, 172, 174
- Rizzi
 - identification 342
- Ruwet
 - French reflexives 100, 110
- Sagey
 - affricates 375–378, 385, 398, 400, 403, 410, 413
- Shaw
 - Nisgha affricates 418–420
- Sproat
 - verb movement to I 560, 577–8
- Steriade
 - Latin stress 159–160
- Stowell
 - as*-clauses 19–20
- Straight
 - Yucatec 383, 388–389
- Suner
 - clitic doubling in Spanish 540–542
- Travis
 - verb movement 45, 560, 577
- Yiddish
 - V2 58–59, 61–64
 - questions 56
- Tsao
 - Chinese reduplication 196–199
- Tuller
 - Hausa operators 348–351, 353, 360–361
- Wonderly
 - Zoque 385–386, 398
- Woodbury
 - Yupik stress 168–169
- Zagona
 - VP analysis 305

INDEX OF LANGUAGES

- Arabic
 - broken plurals productive 211–213
 - Cairene, stress 156–158, 165–168
 - minimal word 251–260
 - plurals 209–283
 - stress 156–158, 165–168, 252
 - syllable structure 252
- Basque
 - anti-edge effects on affricates 382–384, 398
- Berber
 - underlyingly VOS 560
 - VSO order derived by NP adjunction 561
- Catalan
 - modal verbs 285–312
- Cebuano
 - reduplication 237–238
- Chamorro
 - arguably nonhierarchical 568–569
 - coordination 589–615
 - of VP 591–615
 - restricted 589–593
 - hierarchically structured 569–577
 - INFL described 565–568
 - not SVO with nonverbal predicates 588
 - pronouns, conditions on coindexing of 594–601
 - proper government
 - by INFL 575–576
 - not by N or P 573–576
 - right node raising 601–604
 - subjects
 - initial, involve A-bar binding 582–588
 - may occur finally 563
 - quantifiers and 582–588
 - topicalize 563, 582–588
 - Wh-movement and 582–588
 - underlyingly VOS 559–560, 582–588
 - VSO unmarked order 565
 - word order described 562–565
- Chichewa
 - applicatives 501–503
 - locatives 503–505
 - objects 494
 - passives 502–505
- Chinese
 - compounds 177–207
- Chugach Eskimo
 - stress 172–173
- Cupeno
 - habilitative 234–235
- Dutch
 - impersonal constructions 83
- Dyirbal
 - ergative suffix 237
- English
 - affricates do not show edge effects 404–408
 - inflection and the Morphological Blocking Principle 546–550
- French
 - causatives 114–115
 - ergative adjectives 29–32
 - impersonal constructions described 81–82
 - pleonastic *il* 29–31
 - reflexives 100–105, 115
 - stylistic inversion 31–32
- German
 - V-to-C movement compared to Yiddish 73–74
 - verb second 42–43
- Hausa
 - INFL and realis/irrealis 359–361
 - irrealis and Wh-movement 353, 359–361
 - operators and verbal changes 348–349
- Higi
 - labialization 404
- Irish
 - analytic inflectional forms 525–526
 - dialectal variation in inflectional

- allomorphy 525–531
- possessive prefix does not always exclude possessor 533–535
- synthetic inflectional forms 525–531
 - do not always exclude pronoun 532–533
- Irish (Ulster)
 - inflection
 - described 509
 - pronouns and 509–510
- Italian
 - absolute adjuncts 24–27
 - anaphor binding
 - by dative objects 11–15
 - by subjects 16–18
 - come*-clauses 18–21
 - ergative adjectives 5–32
 - ergative verbs 2–3
 - inverted sentential subjects 9–10
 - small clauses and ergative adjectives 28–29
 - unergative adjectives 7–8
 - Wh-extraction from inverted subjects 9–10
- Kichaga
 - extraction from objects 498
- Kikuyu
 - INFL and realis/irrealis 359–361
 - irrealis and c-command 351–352
 - operators and verbal changes 347–348
- Kinyarwanda
 - preposition incorporation 135
- Kolamill
 - reduplication 244–245
- Kutep
 - labialization 403–404
- Lardil
 - reduplication 233–234
- Latin
 - stress 158–162
 - compared to Macedonian 160
 - compared with Manam 162–165
- Lithuanian
 - anti-edge effects on affricates 386–387
- Macedonian
 - stress 153–156
 - compared to Latin 160
- Makassarese
 - reduplication 238–239
- Manam
 - stress compared with Latin 162–165
- Mayan
 - word order 616
- Moore
 - irrealis and Wh-movement 353–359, 359–361
 - operators and verbal changes 349
- Nisgha
 - not subject to edge-effects 418–420
- Palauan
 - INFL and realis/irrealis 359–361
 - irrealis and Wh-movement 352–353, 359–360
 - operators and verbal changes 348
 - Wh-constructions involve *pro* not variables 364–372
- Piro
 - compared with Sierra Popoluca 401–402
 - edge effects phonetic 401–402
- Polish
 - extrasyllabic consonants 421–465
 - Final Devoicing 439–443
 - syllable division 431–432
 - syllable structure 428–443
 - Voice assimilation 443–449
- Portuguese
 - Brazilian
 - clitics and full pronouns 327
 - compared to European 329
 - null objects
 - controlled 343–344
 - described 327–330
 - identification 326
 - not subject to empty topic analysis 330–333
- Sierra Popoluca
 - compared with Piro 401–402
 - edge effects phonetic 400–402
- Spanish
 - clitic doubling 539–545
- Tagalog
 - reduplication 238–239
- Turkish
 - anti-edge effects on affricates 384–385, 398
- Ulwa
 - extrametricality 227–231

- Winnebago
 - stress 149, 153
- Yiddish
 - initial position topicalized 41-43
 - matrix and embedded questions compared 49-55
 - pronouns and movement 47-49
 - subject position 41-77
 - V-to-C movement compared to German 73-74
 - verb movement 41-77
 - verb second 41-43
 - VSO 41
 - word order 41, 43-46
 - yes/no questions 55-56
- Yidiny
 - reduplication 232-233
- Yucatec (Classical)
 - morpheme structure 390-391, 396-399
- Yucatec Maya
 - anti-edge effects on affricates 383-384, 398
 - morpheme structure 388-396, 398-399, 411
- Yupik Eskimo
 - stress 168-174
- Zoque
 - anti-edge effects on affricates 385-386

INDEX OF SUBJECTS

- A-bar binding
 - initial subjects involve in Chamorro 582–588
 - see also* Empty Category Principle; irrealis; objects, null; Subjacency; topicalization; Wh-movement
- Active Dummy Law 100
- adjectives
 - analysis of 477–479, 482
 - ergative 1–39
 - proper governors in Chamorro 574–576
 - see also* ergative adjectives; ergative verbs; unergative adjectives; unergatives
- adjunct clauses
 - in English and Portuguese compared 334–341
 - null objects not variables in 333–342
- adjunct constructions
 - Italian 24–27
- adjunct positions
 - antecedent government and 9–10
- adjunction
 - subject 560–561, 579–581, 588–615
 - described 582
 - motivated 588–615
 - by coordination 589–615
 - by nonverbal predicate order 588
 - by quantified NP restrictions 612–615
 - problems with 579–581
 - see also* SVO; verb movement; VOS; VSO
- adjuncts
 - root modals as 308–309
- affricates
 - derivation of 392–394
 - features of 377–379, 409–410
 - non-linear 375–425
 - see also* anti-edge effects; edge effects
- amphibrach 151
- analytic
 - inflectional forms in Irish 525–526
- anaphor binding
 - dative objects and 11–15, 33–34
 - ergative adjectives and 11–15, 33–34
 - ne* cliticization and 11–15
 - thematic subjects and 15–18
 - see also* adjunction; anaphora; coordination; pronouns; sentential subjects
- anaphora
 - backward 336–338
 - see also* pronouns
- and compounds
 - in Chinese 190–191
- antecedent
 - see* pronouns
- antecedent government
 - adjunct positions and 9–10
 - argument positions and 9–10
 - ergative adjectives and 9–10
 - inverted sentential subjects and 9–10
 - see also* A-bar binding; *es* insertion; government; Wh-movement
- anti-edge effects
 - affricates and 380–382
 - see also* edge effects
- antipassive
 - impersonal constructions and 84, 94–95
- applicatives
 - beneficiary, unlike locatives 503–505
 - instrumental, can passivize 503
 - interpretation in Chichewa 501–503
 - locative, unlike beneficiaries 503–505
 - passive and 502–503
 - see also* Wh-movement
- arbitrary null pronominals
 - in Catalan 301–304
- argument positions
 - antecedent government and 9–10
- arguments
 - include instrumentals and beneficiaries 494
- assimilation
 - of voice in Polish 427–428, 441, 443–449
- auxiliary
 - in Chamorro 567
- Avoid Pronoun Principle 508
- barriers

- alternative definitions of 137–138
- clitic climbing in Catalan and 306–310
- inverted sentential subjects and 9–10
- beneficiaries
 - intransitives can form 499–503
 - structural Case, and 501
 - unlike locative applicatives 503–505
 - see also* applicatives
- beneficiary
 - object, extraction of possible 497
 - passive and extraction of in Kichaga 499
 - thematic role assignment 493–495
 - see also* applicatives
- binding
 - is A-bar for initial subjects in Chamorro 582–588
- c-command
 - coordination and 597
 - defined by branching 2
 - irrealis and 351–352
 - see also* anaphoric binding; pronouns
- Case
 - ergative adjectives and 8
 - structural
 - beneficiaries and 501
 - inherent compared with 495
- Case assignment
 - reduplication and in Chinese 194–195
- Case Filter
 - compared with Visibility Principle 319–322
 - reduction of to Visibility 315–317
- Case Theory
 - Chinese *ba* and 192–193
 - theta identification and 183
- causatives
 - Chinese compounds containing 177, 182–189
 - Japanese and Romance 133–134
- clitic climbing
 - barriers and in Catalan 306–310
 - null subjects and 286
- cliticization
 - of *en/ne* in Catalan 298–306
 - see also* clitics; *ne* cliticization;
- clitics
 - Catalan 298–310
 - full pronouns and in Brazilian Portuguese 327
 - null subjects and 286
 - stress and in Latin 158–162 *see also* cliticization; *ne* cliticization;
 - partitive *en*
- come*-clauses
 - ergative adjectives and 18–21
- complementizer selection
 - ergative adjectives and 21–23
 - limited to D-structure objects 21–23
- complementizers
 - overt, and Wh-movement in Yiddish 71–75
- compounds
 - resultative in Chinese 177–207
 - and type in Chinese 190–191
- control
 - of null objects 343–344
- coordination 338–339
- c-command and 597
- of VP
 - in Chamorro 591–615
 - null pronouns and in Chamorro 594–601
 - right node raising and 601–604
 - motivates subject adjunction analysis in Chamorro 588–615
 - restrictions on in Chamorro 589–593
 - see also* adjunction; VOS; VP
- crossover
 - strong, and null objects 332
- D-structure
 - see* thematic subjects
- dative objects
 - anaphor binding and 11–15, 33–34
- degemination
 - in Polish 428, 449–452
 - postcyclic 460
 - stated prosodically 451
- derivation
 - of affricates 392–394
- derivational morphology
 - lexical hypothesis and 33–37
- diagnostics
 - differ for ergative adjectives and verbs 23–32
 - ergative, fail for adjectives 24–32
- dummy advancement
 - impersonal constructions and 83, 94–95
- ECP
 - see* Empty Category Principle
- edge effects
 - affricates and 380–382
 - not shown by English affricates 404–408

- phonetic 400–402, 421
 - in Sierra Popoluca 400–402
 - see also* affricates; anti-edge effects
- Elsewhere Condition 508
- Empty Category Principle
 - and verb movement to C in Yiddish 71–76
 - and verb movement to I in Yiddish 67, 70, 76
 - Generalized, parameters of 342–344
 - violations 573
 - see also* government; subjacency
- empty topic analysis
 - of null objects 329–333
 - see also* operators
- epistemic modals
 - raising analysis of incorrect 290–297
- equipollent
 - features 378
- ergative adjectives 1–39
 - alternate with verbs 3
 - anaphor binding and 11–15, 33–34
 - antecedent government and 9–10
 - Case and 8
 - come*-clauses and 18–21
 - compared with ergative verbs 23–32
 - complementizer selection and 21–23
 - contrasted with unergative adjectives 7–8
 - existence of
 - defended conceptually 2–5
 - defended empirically 5–23
 - fail diagnostics 24–32
 - in Italian 5–32
 - inversion and 9–10
 - relation to verbs 2–4
 - small clauses and 28–29
 - stylistic inversion and 31–32
 - Wh-movement and 9–10
 - see also* adjectives; diagnostics; ergative verbs; ergatives; unergative adjectives; unergatives
- ergative diagnostics
 - see* diagnostics
- ergative verbs
 - ergative adjectives compared with 23–32
 - relation to adjectives 2–4
 - see also* diagnostics; ergative adjectives; ergatives; unergative adjectives; unergative impersonals; unergatives
- ergatives
 - objects of 2
 - see also* diagnostics; ergative adjectives; ergative verbs; unergative adjectives; unergative impersonals; unergatives
- es* insertion
 - government and 70
 - in Yiddish indirect questions 67–71
- exceptions
 - to Morphological Blocking Principle 525–526
- Exhaustivity Condition
 - Iterative feature and 155–156, 162, 165–175
- external theta-role
 - blocks quantifiers in Chamorro 582–587
- extraction
 - successive cyclic
 - inverted subjects and 10
 - ne* cliticization and 10
 - see also* A-bar binding; Empty Category Principle; Subjacency; Wh-movement
- extrametricality 152
 - Arabic plurals and 226–227
 - Arabic stress and 252
 - prosodic circumscription and 229–244
 - reduplication and 226–227, 250
- extraposition
 - of indefinites *see* impersonal constructions
 - rejected for Chamorro VP coordination 608
- extrasyllabic consonants
 - in Polish 421–465
 - Voice Assimilation and 443–449
- features
 - semantic in syntax 484–487
- feet
 - constructed from moras 151
 - construction of 150
- filter
 - compared to Morphological Blocking Principle 524
- Final I Law 100
- Final Devoicing
 - in Polish 439–443
- foot
 - see* feet
- government
 - es* insertion and in Yiddish 70

- lack of blocks V-to-C movement 74–76
- movement into Spec I and 47–49
- of INFL in Moore 356–359
- proper
 - by INFL in Chamorro 569, 575–577
 - not by N in Chamorro 573
 - not by P in Chamorro 573
- verb movement and, interacting with
 - Wh-movement 72–75
- see also* A-bar binding; antecedent government; Empty Category Principle; Wh-movement
- Grammaticality Metric
 - statement of 318
- head feature
 - percolation 181
- iamb 151
- iambic plurals
 - dominant in Arabic 214–262
- identification
 - hypothesis, null objects and 325, 329–330
 - of null objects 342–344
 - parameters of 342–344
 - passives and 483
 - see also* objects, null
- impersonal constructions
 - described 81–82
 - have pivot heading 1-arc in French 116–124
 - unaccusatives and 82
 - unergatives and 82
 - see also* non-unergative impersonals; unergative impersonals
- incorporation rules
 - compared to Morphological Blocking Principle 524–531, 537–538
 - indirect questions
 - es* insertion in (Yiddish 67–71
- INFL
 - anaphoric 356–365
 - realized as irrealis 359
 - in Chamorro
 - described 565–568
 - discontinuous 565–568
 - lexical when finite 575–576
 - properly governs subjects when finite 575–576
 - in Hausa 351
 - in Palauan is r-expression 362–372
 - in Moore
 - empty and filled 353–359
 - pronominal is realized as realis 359
 - realis/irrealis distinction depends on 351
 - see also* inflection; inflectional allomorphy; SVO; verb movement; VOS; VSO

 nouns; unergative adjectives
- nouns**
 lexical representation of 468, 487
 not proper governors in Chamorro 573
- NP-adjunction**
see adjunction, subject
- null objects**
see objects, null

objects

- beneficiary, cannot be extracted 497
- clitic climbing and 286
- clitics with full NPs as 539–545
- in Chicheŵa 494
- instrumental, can be extracted 497
- ne* cliticization and 5–8
- null
 - as variable 325, 329–330
 - compared with null subjects 325
 - in Brazilian and European Portuguese 329
 - in Brazilian Portuguese
 - controlled 343–344
 - described 327–330
 - identification of 342–344
 - not subject to subadjacency 340–342
 - not variables in adjunct clauses 333–342
 - pro* 335–342
 - unrelated to morphological agreement 325

of ergatives 2

- see also* ergative adjectives; ergative verbs; ergatives Obligatory Contour Principle (OCP)
- applied to affricates 383, 389, 405, 407–408

Obstruent Sequencing Principle
for Polish stated 431

operators

- empty, and null objects 325, 329–330
- indexing of 358
- verbal forms and 347
- see also* A-bar binding; Empty Category Principle; irrealis; Subadjacency; Wh-movement

paradigms

- degenerate *see* inflection, degenerate

parameters

- of control 326
- of Generalized Empty Category Principle 342–344
- of identification 342–344
- of INFL 372
- of metrical structure 155, 160–161, 168, 172
- of subject position 76
- of verb landing site 76

partitive *en*

- unergative impersonals and 91–95

passive

applicatives and 502–503

- instrumental 503
- of locatives 504–505
- representation of 472–474, 477–484, 486

see also objects

person-number marking

- as lexical 532–533

phonological rules

- always ordered 621

possessive prefix

- does not always exclude possessor 533–535

possessor

- does not always exclude possessive prefix 533–535

prelinking

- rejected 244

prepositions

- Case assignment and in instrumentals 494

Final Devoicing and 439–440, 447

instrumental/beneficiary asymmetry and 497

not proper governors in Chamorro 573

see also government, proper

privative

- features 377–378

pro

- in Palauan Wh-constructions 364–372
- inflection and 342–344

null objects are in Brazilian Portuguese 342

see also objects, null; pronouns*pro* analysis

- of null objects defended 335–342

see also objects, null

processing

- Morphological Blocking Principle and 551–554

Projection Principle 466, 468

prominency

- of theta role 179, 183

pronouns

- as subjects and topics 47–49
- conditions on coindexing of in Chamorro 594–601
- not excluded by some Irish synthetic forms 532–533
- null, and Chamorro VP coordination 594–601
- stress and 47–49
- see also* adjunction; anaphor binding;
